

Batul Bohra

Product Designer

Hi, I'm Batul. I design products for a living and trek mountains for fun - both involve figuring out the path, then actually walking it. Three years in, working across fintech, HR tech, and SaaS - and currently obsessed with AI and code as design tools, because nothing beats handing someone a working prototype instead of a Figma file.

Experience

- UX/UI Designer

Exdera - Bengaluru

08/2024 - 09/2025

 - Led UX for a multi-product website redesign covering sitemap, content strategy, and user journeys **reducing bounce rate by 20%**.
 - Designed a role-based Employee Benefits Portal serving brokers, HR teams, and employees; defined information architecture and key workflows across **10+ distinct user types**.
 - Learned to collaborate with PMs and engineers across fintech, HR tech, and entertainment clients, shipping production UI from kickoff to handoff.
- UI Designer

Talentbag - Mumbai

10/2022 - 02/2023

 - Redesigned core SaaS interface for an education platform, contributing to a **20% increase in user sign-ups**.
 - Worked directly with the founder to translate business goals into user-centred design decisions, operating as the sole designer on the product.
 - Applied lightweight user research and visual design principles to ship intuitive, conversion-focused interfaces.
- Graphic Designer

Johar and Brothers - Rajasthan

08/2021 - 10/2022

 - Created brand identity assets (logo, business cards, catalogue, stationery) and web page layouts.
 - Produced product photography and billboard ad designs used across print and digital.

Interests

- Being Outdoors
- Creating Art
- Music

Skills

- Figma
- Prototyping
- Information Architecture
- User Research
- Claude Code
- HTML-to-Design
- Brand & Visual Design

Selected Projects

- Signals - an app for college students
- Designed and prototyped end-to-end flows (onboarding, daily move flow, peer check-ins, journaling) covering the first-semester experience
 - Built a reusable design system - encoding typography, colour, components, and micro-interactions - applied across all screens for consistency
 - Prototyped in HTML/CSS using Claude Code alongside Figma, moving from concept to interactive prototype in days rather than weeks

Education & Certifications

Executive Post Graduate in UI UX Design - IIT Roorkee (03/2026 - Present)

Bachelors of Business Management - Narsee Monjee College of Commerce and Economics (2021 - 2023)
Mumbai

Introduction to Web and eCommerce User Experience Design (09/2022 - 11/2022)
